

Lyme Land Trust Upcoming Events

Sunday, March 11, 2 PM

Saving the New England Cottontail Rabbit Lyme Public Hall, Rt. 156, Hamburg

Shaun Roche from the US Fish & Wildlife Service's Stewart B. McKinney Wildlife Refuge in Westbrook will outline what is being done to rebuild wild populations of the threatened New England Cottontail. He will present photos and discuss the natural history of the New England Cottontail, its habitat, reasons for its decline, and efforts by both governmental agencies and private groups to save this native rabbit.

#####

Fish Ladders in Lyme

Discover the Ancient Path of Fish Migration in the Eightmile River

The Moulson Pond Fish Ladder

Saturday, April 7 10:00 A.M

Marine wildlife expert Linda Bireley will demonstrate how fish use the ladder to reach their spawning grounds upstream above the old mill dam. She will discuss how the returning fish are monitored and the species that return annually to the 8 Mile River to produce new generations.

This program is rain or shine & appropriate for all ages. Polarized sunglasses suggested.

Park at 8 Mile River Cemetery on Mt. Archer Rd on right 1/4 mile off of Rt. 156

Both events are free & open to members & non members.
