

Programs in the Park

Join us for 1, 2 or all 3 family programs this summer at Devil's Hopyard State Park. Saturday mornings 9-10am on July 11, 18 and 25. Rain or shine, meeting at the picnic pavilion parking lot.

July 11: Woodland Critters--Skulls, feathers, pelts and more.

Here is a chance to learn about some special creature features and how native animals survive in the woods. *Presented by a local Master Wildlife Conservationist*

July 18: Riveting Reptiles--Ever wanted to pet a milk snake? Or get up close to a stinkpot turtle? Come meet some of our native reptiles. They are cold-blooded and super COOL. *Presented by Miegs Point Nature Center*

July 25: Stream Bugs—Help the Watershed Coordinator do some stream-bug netting and figure out how bugs can tell us how clean the water is. *Dress appropriately to wade into the water.*

Programs Brought to You by the Eightmile River Watershed
