

# Programs in the Park

## Fascinating World of Insects

*First Free Family Program at Devil's Hopyard State Park. Saturday, July 15, 10-11am. Bring a blanket or chair & meet at covered bridge.*

*Photos from M. Nochisaki's collection*

**Know a kid that loves insects?** Are **YOU** fascinated by insects? Come meet CT Entomology Society's **Matt Nochisaki**, and hear about his love of insects and get a close up look at some amazing silk and sphinx *caterpillars*, *moths*, *beetles* and *mantids*. Learn about how attempts to control the gypsy moth have hurt some of our native silk moths and how other insects adapt to environmental changes.

**Got a bug you need help identifying?** Bring it and we will have our ID books available.
