

## Lyme Land Trust Programs for Curiosity Shop 2022

**April 6: The Sky Above** – Astronomy (Alan Sheiness and Jon Dean): How does a telescope work? Get a close up look at a real telescope and then use it to peer at the moon!

**April 13: How are bird nests made?** (Wendy Hill) We looked at real bird nests for clues to learn about the materials used and how the nests are adapted for each bird. Then we foraged and built a kid size bird's nest.

**April 27: Nature and art:** (Wendy Hill and Diana Fiske) We used natural objects for inspiration to create nature Mandalas. And then we made a human mandala.

**May 6: What lives in the Eightmile River?** (Eightmile River Wild and Scenic Watershed Committee) Get a close up look at some of the cool live creatures that live in the river and learn about their unique adaptation.
