

Lyme School Grant provided by Lyme Land Trust

Mon April 24 and Thur Apr 27, 2023

The Lyme School Grant is provided to fund environmental education in the school in honor of Earth Day. This is an excellent way to reach school children to make them aware of community efforts and to excite and enhance their curiosity about nature and environmental issues. Programs offered by LLT outside of the school setting have experienced limited attendance.

Each class was provided a program which complements the curriculum, customized to the teacher's request. The teachers prepared the children with related lessons beforehand. In 2022 and 2023, programs were provided by Denison Pequotsepis Nature Center.

Kristina White, Environmental Director of the LLT, attended each session, explained the role of the LLT in the community to the students, and took photos. The photos speak for themselves. The programs were well received by the students and teachers: relevant, hands-on, fun, and educational. Thank you to Gavin Lodge for arranging the program on behalf of the LLT with the principal, Allison Hine, and teachers of Lyme School.

April 24, 2023-

9-9:45 - Grade 2 Trees

10-10:45 - Grade 3 Creepers

11-11:45 - Grade 4 Landforms

April 27, 2023-

9-9:45 - Kindergarten Animal Senses
