

## **Lyme School Grant provided by Lyme Land Trust**

**Mon April 22 and Wed Apr 24, 2024**

*The Lyme School Grant is provided to fund environmental education in the school in honor of Earth Day. This is an excellent way to reach school children to make them aware of community efforts and to excite and enhance their curiosity about nature and environmental issues. Programs offered by LLT outside of the school reach a limited number of the children.*

*Each class was provided a program which complements the curriculum, customized to the teacher's request. The teachers prepared the children with related lessons beforehand. In 2024, excellent programs were provided by Denison Pequotsepos Nature Center.*

*Kristina White, Executive Director of the LLT, and Birgit Musheno, LLT Board Member, attended sessions, explained the role of the LLT in the community to the students, and took photos. The photos speak for themselves. The programs were well received by the students and teachers: relevant, hands-on, fun, and educational. Thank you to Gavin Lodge for arranging the program on behalf of the LLT with the principal, Allison Hine, and teachers of Lyme School.*

### **April 22**

**9-9:45- kindergarten - Animal Senses**

**10-10:45- Grade 1 - Pond Life**

**11-11:45- Grade 2 - Trees**

## Rocks and Minerals

near LYME + trust center  
Thanks you very  
Much for visiting  
LYME school,  
It was very Fun  
building the beaver  
DAMS, LYME school  
Loved touching the  
beaver tail and  
head, FROM: NANAMI  
GEMME, and LYME school

Thank You!
