

Lyme School Grant provided by Lyme Land Trust

Mon April 21 and Tues Apr 22, 2025

The Lyme School Grant is provided to fund environmental education in the school in honor of Earth Day. This is the fourth year of the program. It is an excellent way to reach school children to make them aware of community efforts and to excite and enhance their curiosity about nature and environmental issues.

Each class is provided a program which complements the curriculum. The teachers prepare the children with related lessons beforehand. Denison Pequotsepos Nature Center has been contracted to present the programs.

Kristina White, Executive Director of the LLT, and Birgit Musheno, LLT Board Member, attended sessions, explained the role of the LLT in the community to the students, and took photos. The photos speak for themselves. The programs were well received by the students and teachers: relevant, hands-on, fun, and educational. Thank you to Gavin Lodge for arranging the program on behalf of the LLT with the principal, Allison Hine, and teachers of Lyme School. And thank you to Denison Pequotsepos Nature Center.

April 21

9-9:45- kindergarten - Animal Senses

10-10:45- Grade 1 - Pond Life

11-11:45- Grade 5 - Beavers

April 22
