PRESERVE BOUNDARY
PARKING
TIDAL WETLANDS
Path - 100 yds (no Motor vehicles)
Mowed driveway - 200 yds
Path to water (no Motor vehicles)
For general reference only 10/25/26

Selden Landing: 2.75 acres.

Directions: From Hadlyme 4-corners (Hadlyme Country Store), take Ferry Rd (Rte 148) 0.7 miles. Take a left onto Joshuatown Rd. In 0.4 miles, go right onto Selden Rd. Selden Landing is on the left in 0.3 miles. Pull in and park near the preserve sign.

Take the path for great views from the bench on the rocky bluff. This is a pleasant place to birdwatch or enjoy a picnic overlooking scenic Selden Cove. The property is mowed once a year to maintain the meadow. A steep mowed driveway to the water provides a an additional 200 yard walk. This driveway is navigable by motor vehicles with 4-wheel drive and a high carriage to reach an unimproved launch path for small watercraft, best at high tide.

This brackish tidal wetland system is one of the least disturbed and most pristine large-river tidal marsh systems in the nation. It provides vital breeding, foraging, resting, and migratory pathways for rare and diverse bird species including the American black duck, mallard, wood duck, mergansers, Virginia rail, piping plover, osprey, snowy egret, and bald eagle.

Selden Landing was aquired by the Town of Lyme in 2015 with funding from the
CT DEEP Open Space and Watershed Grant Program, the Town of Lyme, and private donors.
